

MY DATA ANALYST PORTFOLIO

A few example of data analytics projects that I have been working on.

by Fauzi Al'muzakki

About Me

Fauzi Al'muzakki
Mathematics ITB - 2020

Hi, I'm Oji.

A highly analytical and data-driven individual with a passion for data analytics. I have always been fascinated by the power of data and how it can be used to solve complex problems and make informed decisions. I am determined to improve my technical skills and apply my theoretical knowledge to build a solid foundation for my career.

Education

Bandung Institute of Technology - Indonesia
Bachelor of Sciences in Mathematics
2020 - 2024 (Expected)

I am currently in 6th semester of the study, soon to be a final year student.

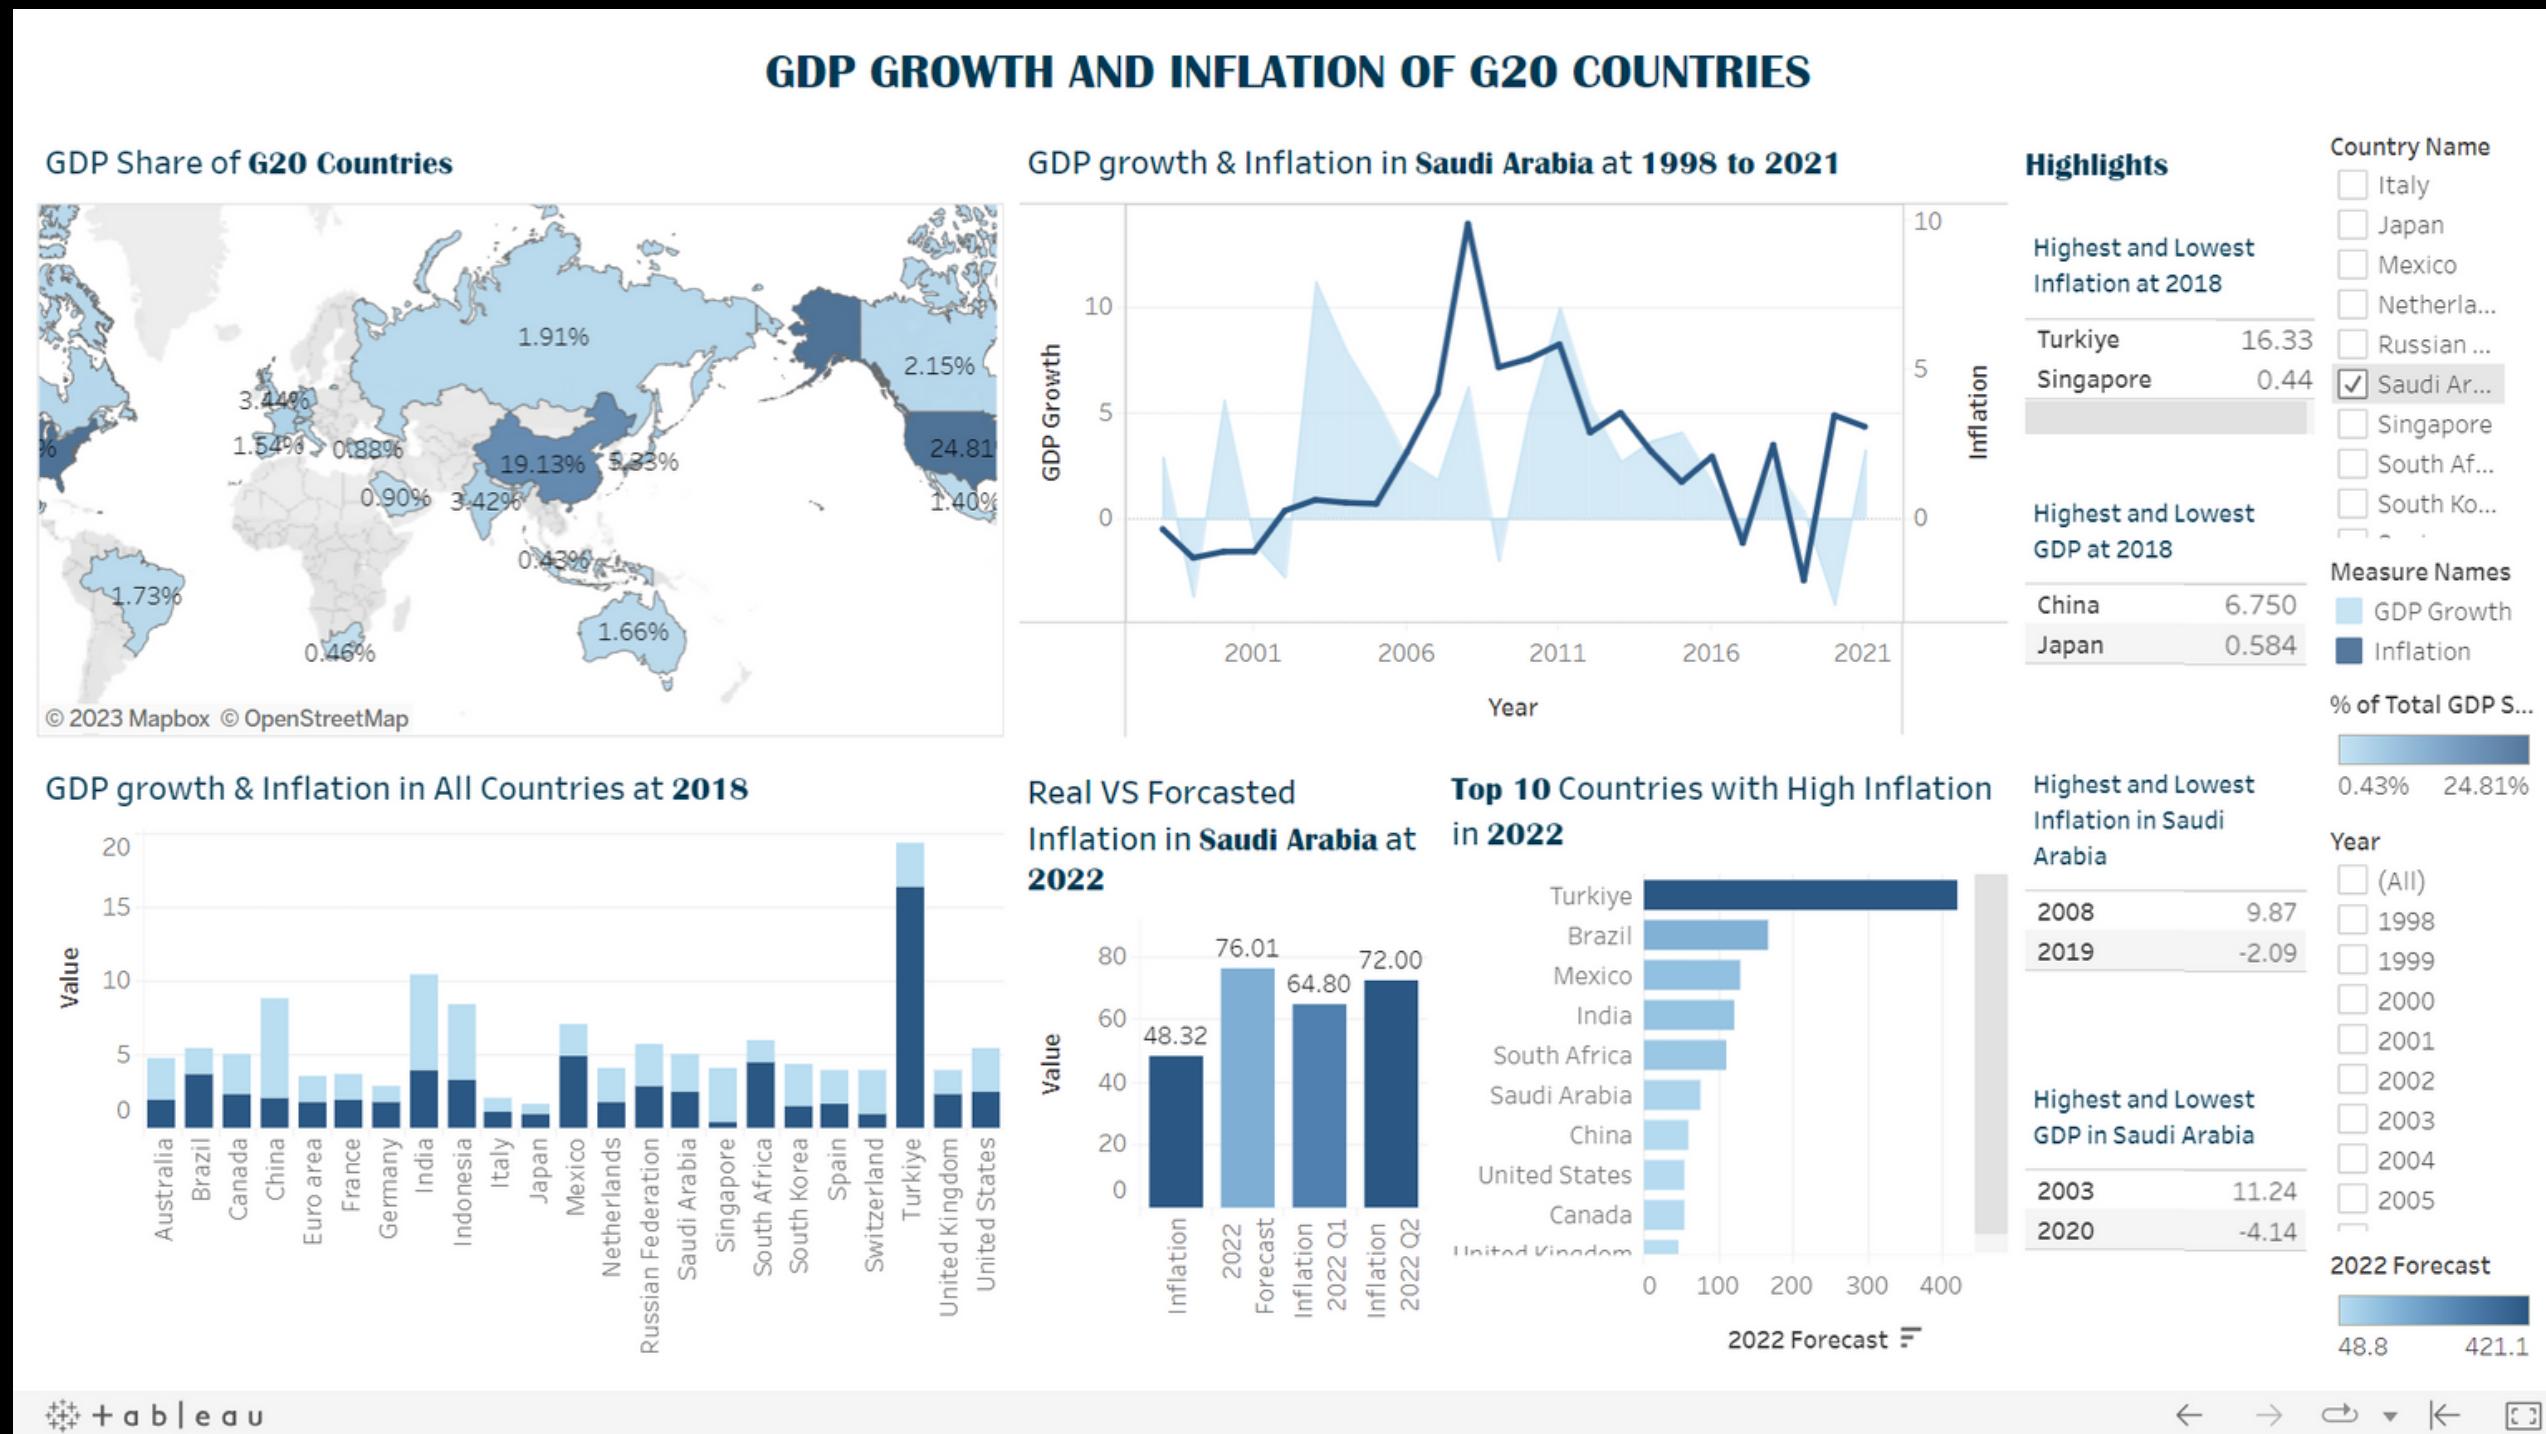

Skills and Abilities

- Programming Languages : Python (pandas, numpy, matplotlib), R
- Visualization Tool : Tableau
- Data Collection : SQL
- Excel/Sheets
- Data Analysis
- Data Storytelling

Relevant Projects

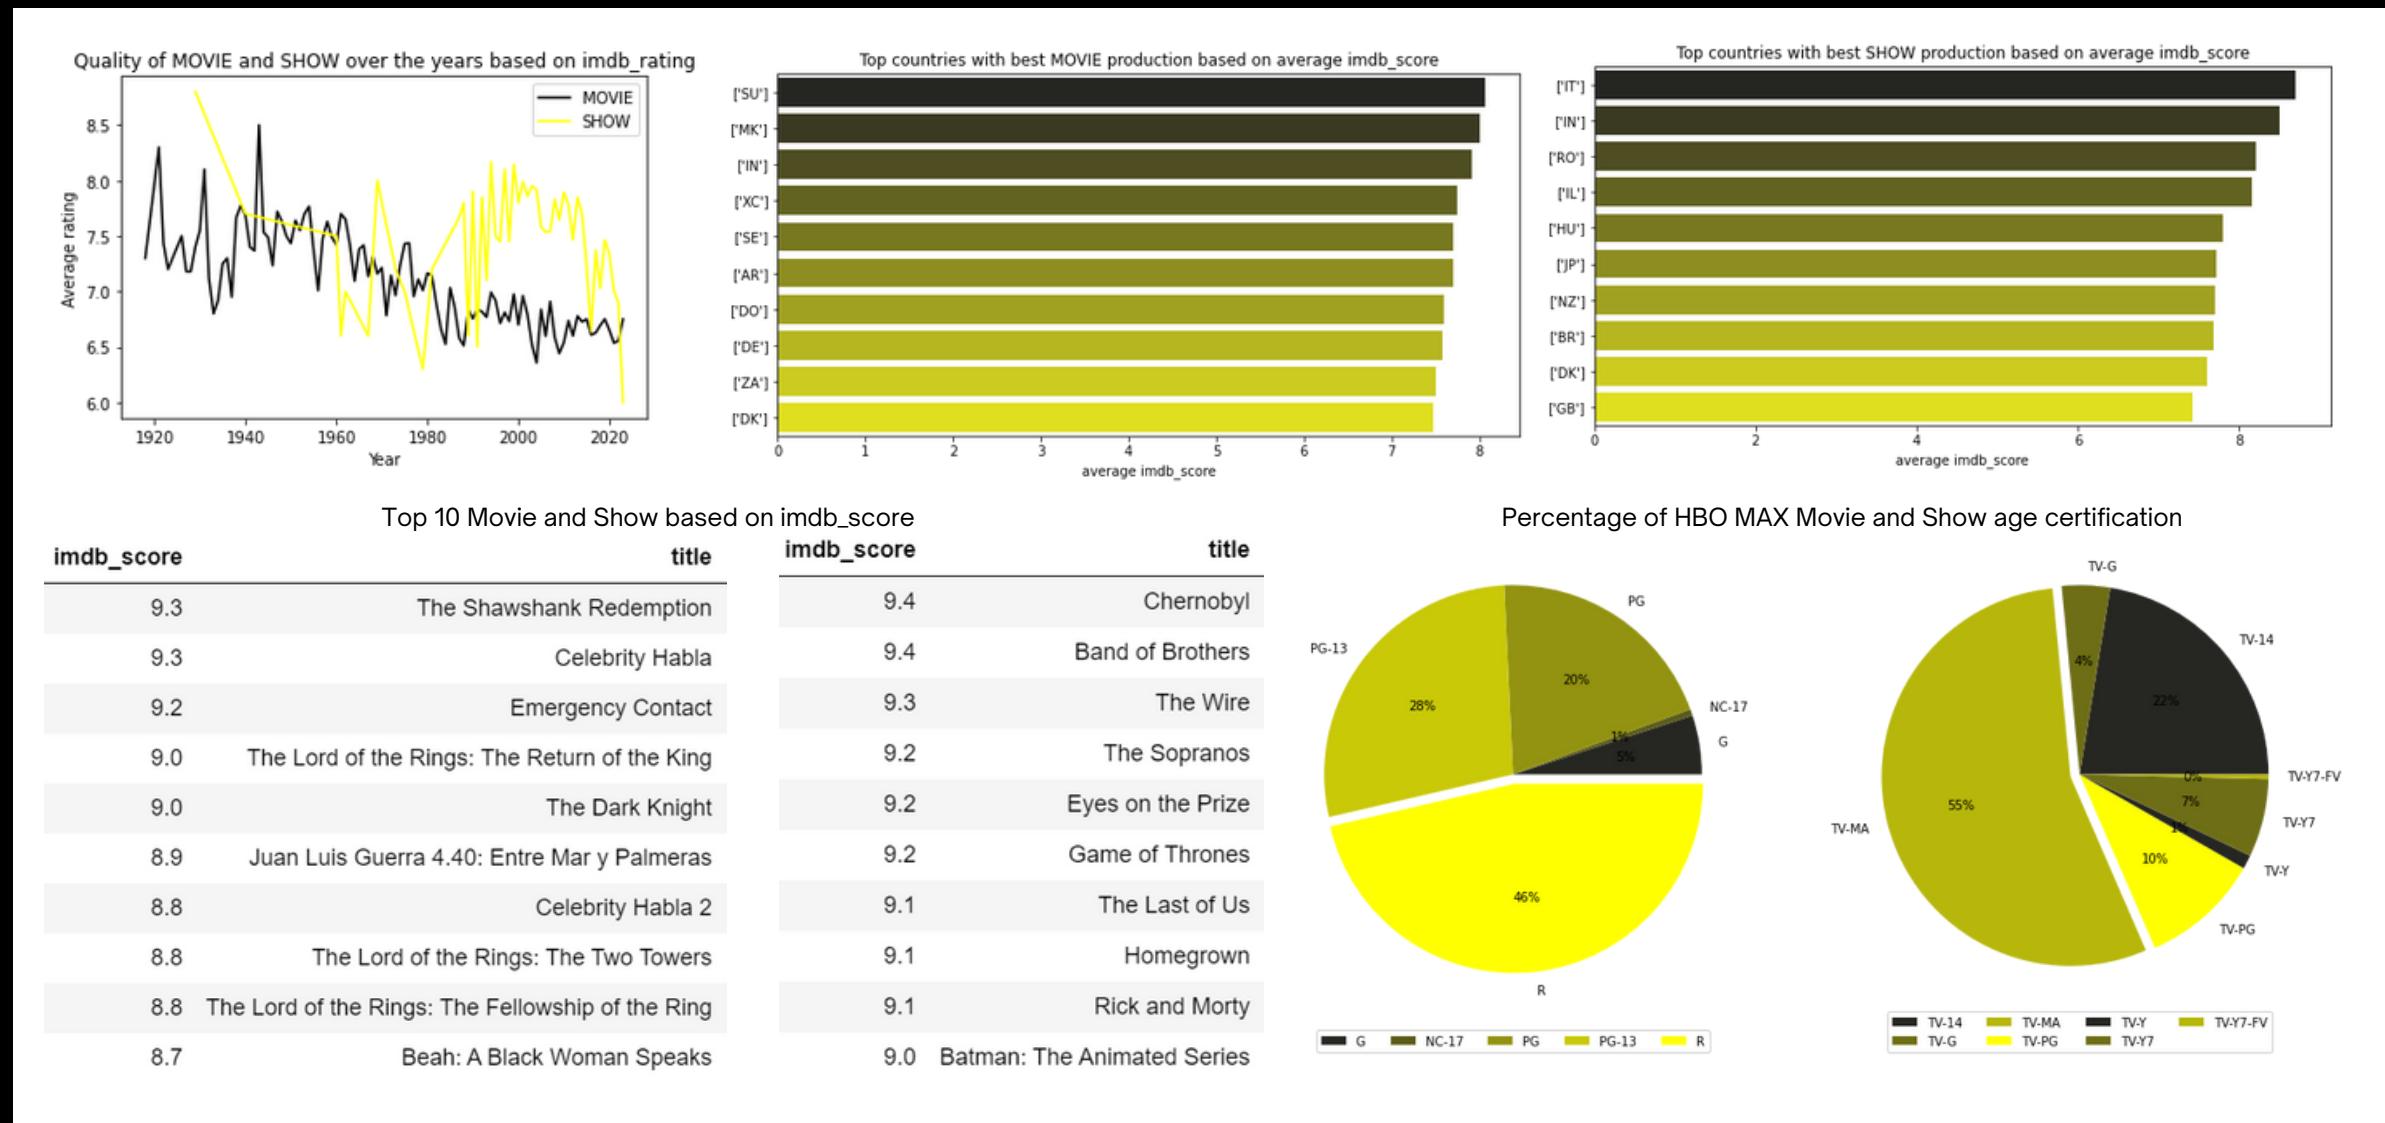

GDP & Inflation of G20 (Tableau)

Analyze and create an interactive dashboard to gain various insights about GDP growth and inflation about G20 countries.

HBO MAX Movie & Show (Python)

Analyze the data from [this dataset](#) to gain various insights about quality, production, and age certification of HBO MAX's movie and show.

Steps performed:

1. Data cleaning (cleaning data from missing values and duplicates).

2. Data analysis and visualization.
